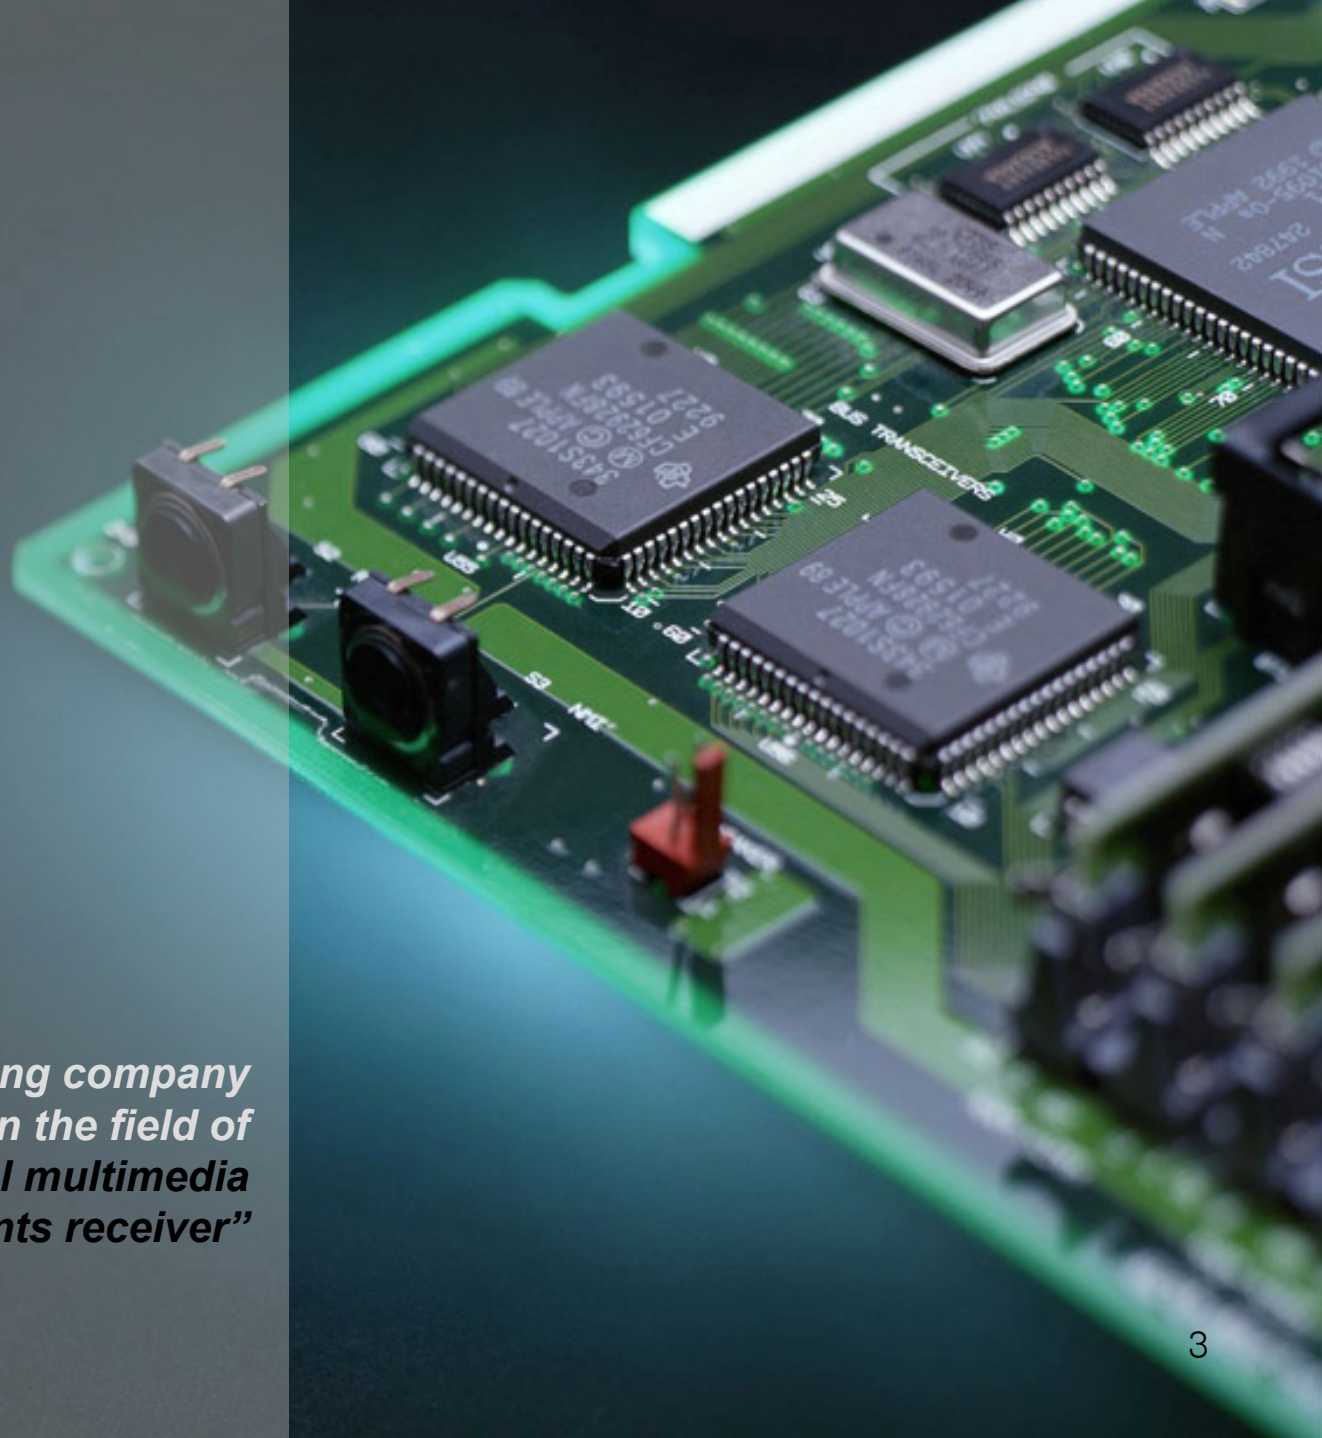
vision

"Be a leading company in the field of digital multimedia contents receiver"



mission

"Maximization of the company value
by realizing customer satisfaction through
good human management"

company overview

1. ARION is a leading STB & DMB manufacturer headquartered in Korea since established in 1999.
2. Since then, the company has been providing STB & DMB worldwide through its German & Argentine sales offices and production facilities in Korea & China that having 300K manufacturing capacity. In 2005 ARION was successfully listed in Korean Stock Market.
3. Today, more than 110 employees work in their headquarters of which 65 of them are dedicated to research and development (R&D).
4. ARION's broad and various STB ranges such as Satellite, Cable and Terrestrial STB, along with PVR, 2 Room/HDMI PVR, and STB Combo are at the core technology of ARION.
5. A new developed MPEG-4 (H.264) HD STB and DVB-T/H Mobile TV are ready to provide more satisfactions and value-added services to the customers.
6. We, ARION members, are trying our best to accomplish USD100million revenue this year.

CEO message

Toward Global Consumers,

First of all, we would like to express our gratitude to all our customers and shareholders – you are always the driving force for ARION Technology.

We have done tremendous efforts for our customers to enjoy in comfort a variety of multimedia contents in broadcasting and communications. ARION has started to reap the benefits from its efforts to enter the operators' market since the year 2006. Operators in Europe, Asia and South America have contracted with us and we are accelerating the growth of businesses with the operators.

In order to cope effectively with the fast pace of the digital environment, and for continued development and stable profits, ARION Technology in investing its capabilities in R&D and marketing.

Thank you from Jason Lee
CEO/President
ARION Technology Inc.

"Offering Satellite, Terrestrial and Cable STB, ARION is getting excellent reviews with the latest products like HDTV, embedded CAS, HDMI and Multi-Room PVR."

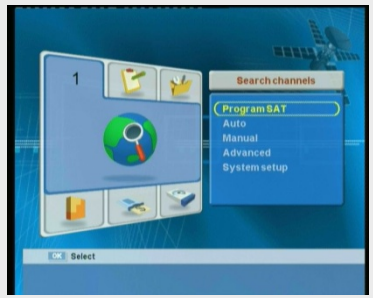
Matchless performance and user friendly features



product & technology

ARION Technology Inc. enables you to enjoy a whole new, fulfilled and customized digital happiness. Our ongoing advancements is increasing competitiveness with systemization, efficiency, and growth drive initiatives. Change your digital life with ARION Technology.

Bringing the higher visual standard with HDCI & HDMI Box

Premium technology closer your HD broadcasted media
Fully Compliant to MPEG-4 part10 AVC HD/ H, 264 standard
Fully Compliant to DVB-S/S2 satellite standard
Various Video Display format with PAL/NTSC/480p/576p/720p/1080i 50/60Hz supported

Exploring new market through unique Multi Room Box

World first innovative technology of ARION Technology Inc.
Simultaneously & Independently… A/V output for 2 separate TVs
Controlling one STB, multi room will be supported.
Cost reducible, and new feature & service to operators

Qualified PVR doubling up your digital life satisfaction

Stabilized 4 Channel simultaneous recording
Multi Screen & PIP (picture in picture) function
MP3 editing & playback function
Powerful contents editing function through USB2.0

Various embedded solutions

Conax, Irdeto, Cryptoworks, & Nagravision embedded

ARION TECHNOLOGY

HDCI & HDMI

AF-8000HDCI
High Definition TV Set Top Box

Crystal clear picture / Dolby Digital Audio Output
Fully Compliant to MPEG-2 & MPEG-4 Part10 AVC HD/H.264 & DVB-S/S2
PAL/NTSC/480p/576p/720p/1080i 50/60Hz Fully Support
Easy and Fast Auto Programming, Intuitive User Interface
Optional : cable & Terrestrial

AF-9400PVR HDM
HDMI Personal Video Reco

Advanced Digital Picture available by HDMI output
HDMI Connector for LCD/PDP TV
Improved Video Quality by HDMI Upscaler
2-Common Interfaces & 1-Smart Card for Embedded CAS Support (Customer Option)
Watch 2 live streams, or 1 channel playback & 1 channel live stream
Multi-channel (max. 4 channels per TP) recording with 1 channel playback
DVB-T / DVB-C

ARION TECHNOLOGY

Multi Room PVR

AF-8700MCI2R
DVB-S Multi-Room Receiver

2 CI & 1-Smart Cards for Embedded CAS Support (Customer Option)
One Receiver for Two Different Televisions in Two Rooms
Switching Rooms and Watching the Other Room¡¯s Program
Short Sentence Message(SMS) between two rooms
Supports full functions of TV1(Room1) as CI Receiver / Supports full functions of TV2(Room2) as FTA Receiver

AT-8610M2R
DVB-T Multi-Room Receiver

Single Smart Card reader for Embedded CAS Support (Customer Option)
One Receiver for Two Different Televisions in Two Rooms
Switching Rooms and Watching the Other Room¡¯s Program
Short Sentence Message(SMS) between two rooms
Supports full functions of TV1(Room1) as CI Receiver / Supports full functions of TV2(Room2) as FTA Receiver

product & technology

embedded STBs

AF-2560R
NAGRAVISION Embedded Model

Single Smart card reader for NAGRAVISION embedded CAS
Easy Graphic MENU Interface / EIT display time setting
Separated TV/Radio/All List & Favorite Group List
Optional : Cable & Terrestrial

AF-2410CR
CONAX Embedded Model

Single Smart card reader for CONAX embedded CAS
Easy Graphic MENU Interface / EIT display time setting
Separated TV/Radio/All List & Favorite Group List
Optional : Cable & Terrestrial

AF-3000IR
IRDETO Embedded Model

Single Smart card reader for IRDETO embedded CAS
Easy Graphic MENU Interface / EIT display time setting
Separated TV/Radio/All List & Favorite Group List
Multi-picture screen (Mosaic) support up to 9 CH & Zoom in Function
Copy Protection with ALPU (Algorithm License Permission Unit)
Optional : cable & Terrestrial

AF-2000CR
CRYPTOWORKS Embedded Model

Single Smart card reader for CRYPTOWORKS embedded CAS
Easy Graphic MENU Interface / EIT display time setting
Separated TV/Radio/All List & Favorite Group List
Optional : cable & Terrestrial

DMB & Mobile TV

DA-110E

Terrestrial DAB radio
Hand-held type

DA-210E

Terrestrial DAB radio
Kitchen type

DA-300E

Terrestrial DAB radio + mp3
Hand-held type

DA-350E

Terrestrial DAB radio + mp3
Hand-held type

DA-110E

Main Features

- Perfect Digital radio offering crystal-clear CD quality sound
- Compact design with Graphic LCD display with EL back light
- Hand held DAB digital radio & FM stereo radio
- DAB & FM radio preset feature upto 6 stations

DA-210E

Main Features

- Perfect Digital radio offering crystal-clear CD quality sound
- Classic design of Wooden color with Graphic LCD display with EL back light
- Kitchen type portable DAB digital radio & FM stereo radio
- Built-in high quality stereo speaker
- Equalizer function for Various sound modes
- DAB & FM radio preset feature upto 6 stations

DA-300E / DA-350E

Main Features

- Supports DRM 10 (Janus) / AAC / MP3 / WMA decoding
- USB 2.0 / Internal memory / SD card available
- 2 x AAA rechargeable battery
- DAB recording function to internal memory or SD card
- Graphic LCD / Easy to use / CD quality sound

DM-100K

Terrestrial DMB receiver
Car type for Korean market

DM-200K

Terrestrial DMB receiver
Car type for Korean market

DM-100K

Main Features
- Compact and small design
- Easy for installing and cabling
- Film antenna and IR remote
- DAB radio available
- DIY (Do It Yourself) concept

DM-200K

Main Features
- Watching for 2 monitors/TVs (AV1, AV2 out)
- Connection with 2 A/V devices (DVD, Navigation)-(AV1, AV2 In)
- DAB radio available
- Band III (174~240MHz), DC12V ~ 24V
- Audio decoding: MUSICAM, MPEG-4 / BSAC
- Video decoding: MPEG-4 Part 10 AVC / H.264

- DM-100G [T-DMB receiver for vehicles]
- DM-150G [Portable T-DMB receiver]
- DM-200G [T-DMB receiver for vehicles]
- DM-300G [USB type T-DMB receiver]
- DM-500G [3.5 inch T-DMB TV]

→ • 5 line-ups will be available for German market in soon.

DB-100J

ISDB-T 1-seg receiver
Portable type

DB-200J

ISDB-T 1-seg receiver
For a vehicle

DB-300J

ISDB-T 1-seg receiver
USB type

DB-500J

ISDB-T 1-seg receiver
3.5 inch TV

DB-100J

Main Features
- Japanese mobile digital TV (ISDB-T 1-seg)
- MPEG-4 AVC / H.264
- Frequency: UHF 470Mhz ~ 770Mhz
- Frame rate: 15 Frames / sec
- Audio format: MPEG-2 AAC / AAC-SBR

DB-200J

Main Features
- Japanese mobile digital TV (ISDB-T 1-seg)
- MPEG-4 AVC / H.264
- Frequency: UHF 470Mhz ~ 770Mhz
- Frame rate: 15 Frames / sec
- Audio format: MPEG-2 AAC / AAC-SBR

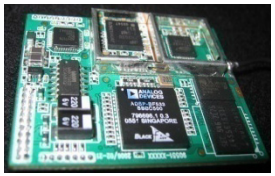
DB-300J

Main Features
- USB 2.0 / USB 1.1
- MPEG-4 AVC / H.264
- Frequency: UHF 470Mhz ~ 770Mhz
- Frame rate: 15 Frames / sec
- Audio format: MPEG-2 AAC / AAC-SBR

DB-500J

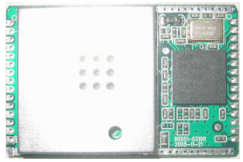
Main Features
- 3.5 inch TFT-LCD (320 × 240)
- MPEG-4 AVC / H.264
- Frequency: UHF 470Mhz ~ 770Mhz
- Frame rate: 15 Frames / sec
- Audio format: MPEG-2 AAC / AAC-SBR

MO-1B0S



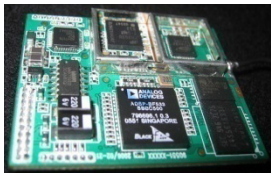
T-DMB solution module

MO-1B0A



T-DMB RF+BB module

MO-1L0S



T-DMB solution module
for L-BAND

MO-3J0S

ISDB-T solution module

MO-1B0S

Main Features

- RF sensitivity: -98dBm ±2dBm@BER=1×10-4
- Band Ⅲ (174MHz ~ 240MHz)
- Up to CIF 30 frames / sec
- Audio decoding: MUSICAM, MPEG-4 / BSAC
- Video decoding: MPEG-4 Part 10 AVC / H.264

MO-1B0A

Main Features

- Band Ⅲ (174MHz ~ 240MHz)
- I2S out, SPI in/out
- High Speed station search (Full scan / Manual scan)
- DRC on / off & gain control
- 10 Preset memory
- Low power (330mW)

MO-1L0S

Main Features

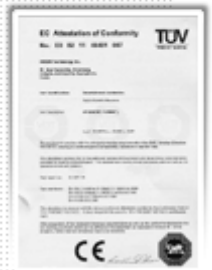
- RF sensitivity: -98dBm ±2dBm@BER=1×10-4
- Up to CIF 30 frames / sec
- Audio decoding: MUSICAM, MPEG-4 / AAC
- Video decoding: MPEG-4 Part 10 AVC / H.264
- Command Interface: UART

MO-3J0S

Main Features

- RF sensitivity: -98dBm ±2dBm@BER=1×10-4
- L-band (1452~1492MHz)
- Up to CIF 30 frames / sec
- Audio decoding: MUSICAM, MPEG-4 / AAC
- Video decoding: MPEG-4 Part 10 AVC / H.264
- Command Interface: UART

production facility



Multi Production Bases

We are operating multiple production bases in Dongguan, China and Pyongtaek, Korea to achieve competitiveness in production Capabilities and cost.

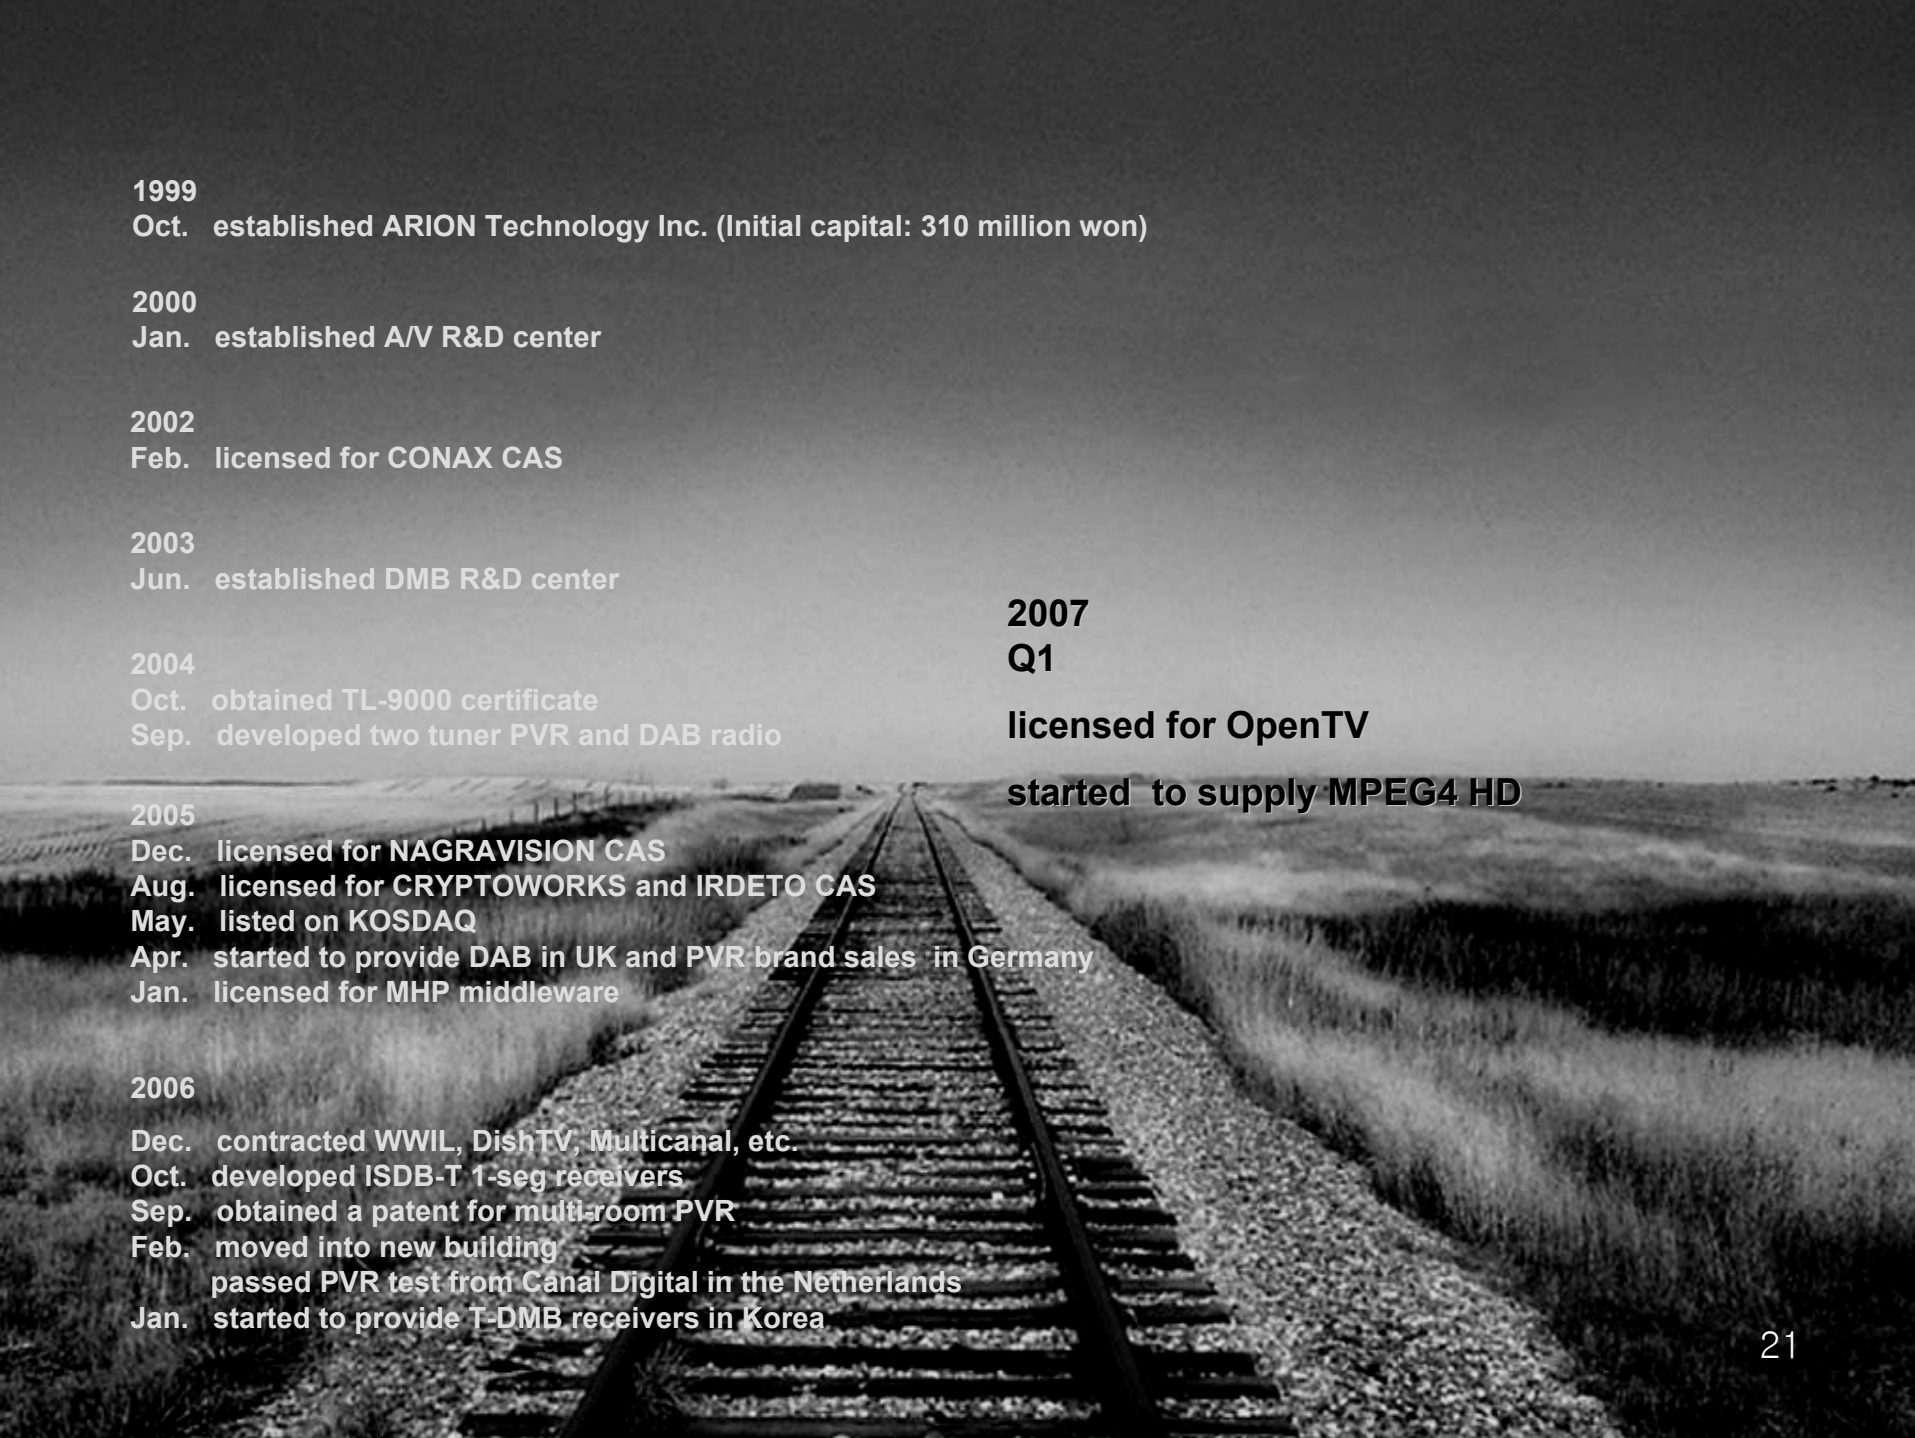
Maximization of Production Capacity

Through decentralized production plants, we are coping well with increasing production capacity as well as a quality control appropriate for the product features, producing 300,000 STB units and 100,000 DMB units monthly.

worldwide network

ARION Technology Inc, has…
- HQ in Korea
- 2 Overseas Sales Office in Germany and Argentina
- 2 Manufacturing facilities in Korea and China

▪ The Frankfurt branch of ARION Technology, since 2006, has been a window to the main European market
▪ The Buenos Aires branch of ARION Technology is to be open in March, 2007. It is expected to be the core business operation center of the company.
▪ The Chinese subsidy of ARION Technology, located in Dongguan province, has production facilities of 300,000 STBs per month.



1999
Oct. established ARION Technology Inc. (Initial capital: 310 million won)

2000
Jan. established A/V R&D center

2002
Feb. licensed for CONAX CAS

2003
Jun. established DMB R&D center

2004
Oct. obtained TL-9000 certificate
Sep. developed two tuner PVR and DAB radio

2005
Dec. licensed for NAGRAVISION CAS
Aug. licensed for CRYPTOWORKS and IRDETO CAS
May. listed on KOSDAQ
Apr. started to provide DAB in UK and PVR brand sales in Germany
Jan. licensed for MHP middleware

2006
Dec. contracted WWIL, DishTV, Multicanal, etc.
Oct. developed ISDB-T 1-seg receivers
Sep. obtained a patent for multi-room PVR
Feb. moved into new building
passed PVR test from Canal Digital in the Netherlands
Jan. started to provide T-DMB receivers in Korea

2007
Q1
licensed for OpenTV
started to supply MPEG4 HD

THANK YOU !
